**1300 hrs** Arrival at Lake Naivasha Sopa Lodge in time for lunch.

Afternoon spent at leisure.

Lake Naivasha is a freshwater lake in the Kenya section of Africa's Great Rift Valley, and is located north west of Nairobi with the town of Naivasha on its north eastern shore. At 1,890 meters (6,200 ft) above sea level, the lake is at the highest point in the Kenyan rift, and is set in a complex geological combination of volcanic rocks and sedimentary deposits from a much larger Pleistocene era lake.

Because the outlet for this ancient lake, now called Njorwa Gorge, is today much higher than the lake, the original Lake Naivasha must have indeed been a truly vast expanse of water. The gorge now forms the entrance to the Hell's Gate National Park which, for obvious reasons, today contains some spectacular examples of water and weather-worn rock formations as well as an abundance of flora and fauna to include some extremely rare, resident breeding pairs of Lammergeyers, otherwise known as Bearded vultures.

**This time can be used doing a boat ride or a visit to Crescent Island – see rates below.**

Dinner and then overnight at the lake naivasha sopa lodge.
